

JANUUS

PRODUCT QUALITY ASSURANCE INTERNSHIP

Jump into the game with a crew that's all about innovation, growth, and making real impacts! 🚀 If you're on the hunt for an internship that's more than just coffee runs and endless photocopying, you've hit the jackpot with us.

Here, you'll collaborate with a team that values fresh ideas, bold creativity, and a can-do attitude. We're on a mission to shake things up and we believe that new perspectives – like yours – are the secret sauce to our success. ✨

Get ready to dive deep into projects that matter, where your work doesn't just stay on the drawing board – it comes to life, influencing and inspiring the community around us. You'll be part of a dynamic ecosystem, where learning from each other is part of the daily routine, and your contributions have the power to spark change.

So, if you're eager to leave your mark, develop your skills, and be part of a team that's pushing the boundaries of what's possible, let's make it happen. Together, we'll explore new horizons, support your professional journey, and have a blast along the way. Welcome to the squad – let's create, innovate, and inspire. 🌟👏

Who you are:

- Pursuing a degree in computer science, computer engineering, or other similar majors
- Have experience in software development (Angular) and testing tools such as Selenium
- Passionate about ensuring quality and a positive user experience
- Have strong communication and interpersonal skills
- Able to work independently and provide updates to engineer team
- Bilingual (would be nice to have)

Here you will:

- Review and test our website and webapp to identify areas for improvement and enhance and ensure seamless the user experience
- Document and report on identified problems and technical difficulties
- Collaborate with the development team to design, implement, and maintain user-friendly interfaces for web applications and websites
- Collaborate with teammates during technical designs and test planning
